

1

available for assembly.

2

Erect frame structure
ensuring centre magnetic
rods are connected.

3

Place magnetic rails
vertically into hubs
and let snap into place.

4

Affix flexible magnetic rails
to centre hubs to form curve
shape, either end of pop up
frame.

5

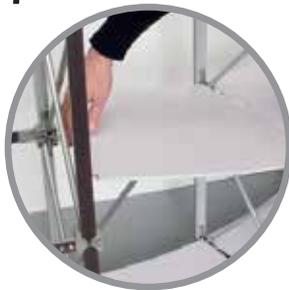

The assembled structure is now ready to accept the shelves.

6

Insert the lower and middle shelves. Slightly angle the shelves to assist location.

7

The shelves align together as illustrated above.

8

Unroll the graphic and locate the magnetic buttons into the top of the structure, ensuring magnetic tape aligns to the vertical rails.

9

Affix both ends of the graphic to the rear of the system, aligning the magnetic buttons and tape.

10

Open up the laminated table top, align slots and channel in underside with hubs and graphic, and carefully lower into position.

11

Secure the table top in place by wrapping the velcro (on the underside) around the frame tubing.

WARNING - the top must be secured every time the unit is assembled - **MANDATORY**.

Your counter is now ready for all types of promotional work. To dismantle the pop up counter, reverse the assembly procedure. Ensure graphic is rolled image side facing outwards
