- Panel widths are the same as the D-end front curve of the Pop Up (673mm wide)
- Available in 3 or 4 quads high
- Compact for easy storage
- Plum powdercoated finish

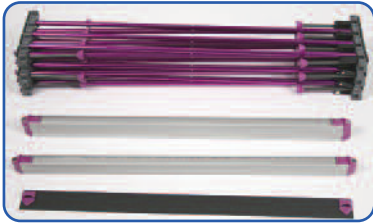

Hardware Specifications

Please refer to graphic template for full graphic spec

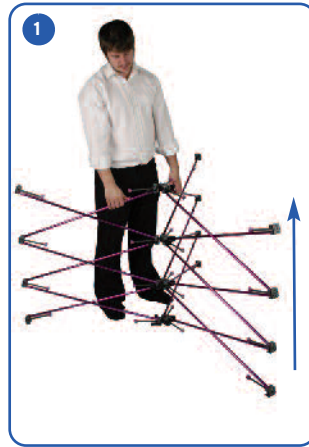

3 Quad Specification:

Assembled dimensions: 2265mm high x 640mm diameter
Weight (including case and graphic panels) 11kg approx
Weight (including case, minus graphic panels) 6.5kg

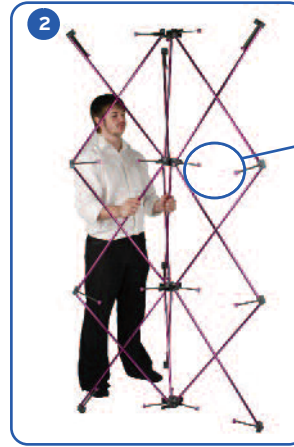

All of the above are based on a 3 quad high pop-up tower

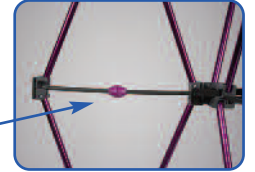

Kit includes:
Pop-up frame, magnetic bars
and graphic hangers

1 Lift the top of the pop-up frame to expand the structure ensure the nodes are at the top of the structure

2 Make sure once the pop-up is fully expanded that all the magnetic locking arms and secure.

Fasten the sides together by closing each magnetic arm in the centre of the pop-up tower

3 Attach the magnetic bars to the pop-up frame nodes

4 locate the hooks on the hanger to each node and hook into place. In order to position the panels correctly, once hooked at the top, line up the panel edges half way across the magnetic bars. Once fitted the panels may need slight adjustment to line up perfectly
