

The **11** BEST REASONS to buy an **X-Gloo!**

1 QUALITY

X-GL00 tents are designed and constructed to be of the highest quality and functionality. We are proud to say that our tents are waterproof, fire retardant (B1 certified), UV resistant, and stable in winds up to 60 km/h—we tested the X-Gloo in a professional wind tunnel to prove it.

2 APPEARANCE

The sleek design of X-GL00 tents and Elements is both functional and attractive, and has earned the X-Gloo the red dot award.

3 LIGHT AND INFLATABLE

The X-Gloo Event Tent is an inflatable lightweight tent system (as little as 13.13kg). Thanks to the aerodynamic form, high-tech materials, and clever stabilization system, it is perfectly suited for indoor and outdoor use. It is the ideal presentation platform for any situation or location! Plus, it reduces to a surprisingly-small pack volume for easy transport and storage.

4 QUICK SETUP TIMES

Thanks to the 4-tube design of the X-Gloo and the type and location of the inflation valves, our tents can be set up by one person in as quickly as 5 minutes! Once inflated, the pump can be removed and the tent will stay standing for days on end without the need to add air. No permanent pump needed!

5 GERMAN ENGINEERING AND DESIGN

Since 2007, X-GL00 has been the specialist in inflatable event tents. We have invested thousands of hours in engineering and tested dozens of fabrics and prototypes to ensure that our tents are of the highest quality and stand up to wind and weather time and time again.

6 GLOBAL NETWORK

Our network of Distributors covers 5 continents and over 35 countries.

7 BRANDING OPTIONS

Your brand is important, which is why we give you the ability to apply your logo, text, and images to the X-Gloo. We also offer a wide range of print methods to ensure that your budget and timeframe are met.

8 HUGE SIZE RANGE

We offer tent footprints starting at 16 square meters on our 4x4 model going all the way up to 61.6 square meters on our 8x8. With this range—plus the ability to connect multiple tents with our Tunnel Parts—we offer you the scalability options to fit every need.

9 BLOCK-BUILDING SYSTEM

The optional walls, tunnels, and canopies—or „Elements“—can be zipped on or off quickly and easily. The roof and tubes which make up the tent „Matrix“ can also be removed, exchanged, or replaced. What this means to you is that the X-Gloo can grow or change with your needs.

10 IN-STOCK OPTIONS

For cases when you need a tent REALLY soon, we have a wide range of customizable in-stock products so we can still provide you with a tent for your event which is unique, eye-catching, and doesn't sacrifice on quality.

11 SERVICE OPTIONS

Our diverse range of service options—including In-House Design, are designed to support you before, during, and after the purchase of your tent. Additionally, our service centers in Europe and the United States will ensure that your tent is in the best possible condition for your next event.
