

Use the XL 60 Free Standing TV Stand free-standing or integrated in a pop up wall

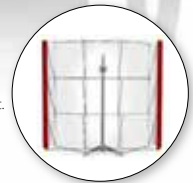

XL 60 Free Standing TV Stand

XL 60 Free Standing TV Stand is an extra large stand for monitors & flat screens up to 42kg or 60". It can be used as freestanding or integrated in our Pop Up Displays.

When the monitor stand is used with these products the panel is cut to fit the foot and monitor mount. The pole has a channel where you can easily hide the cables and wires.

The stand is very stable and is delivered in a bag. It weights only 17 kg. Monitor is not included.

The extra stable base collapses for easy transport and storage. When ready for set-up, simply flip the base upside down and fold out the legs.

Footprint: 762 x 762 mm
Weight: 17.1 kg (incl. bag)
Flexible monitor height*: 160, 170, 180 & 190 cm.

* Heights for the mounting holes on the vertical pole. Actual monitor height will vary depending on monitor size and mounting location.

Your monitor is mounted using the universal VESA standard 200 x 200 up to 400 x 600.
